Image Galleries and Sliders for Confluence

Smarter galleries and sliders for Confluence Server and Cloud

The Image Galleries and Slider Add-On for Confluence Cloud allows you to present your attached images even better using some handy macros.

- Display images of space, specific content (page or blogpost) or attached images of current content
- Filter images by labels
- Sorting of images by title, creation date or last modification date from ascending to descending
- Images are linked to the preview
- Provides resposive macros with many options
