Administration Manual

Configuration

You can directly start using the Label Suggester add-on without any configuration. Use the configuration to refine or improve your label suggestions within your custom business case.

You can find the configuration dialogs within the Confluence administration within the menu "Label Suggester".

Labels

The configuration dialog for labels allows you to adjust the basic behavior of the add-on, like

- enabling or disabling suggestions for specific content types (for instance blogs or pages),
- setting the number of shown results.
