

General Configuration

The add-on enables you to define your own rating criterias. You will find the configuration within Confluence Administration area at "Configuration" "Content Rating" or by clicking the "Configure" button from the plugin manager.

Criteria

In "Criteria" tab you will find all existing rating criterias (Default criterias are Perspicuity, Significance, Structure).

[Criteria](#) [Add Criterion](#) [Settings](#) [Tools](#)

Name	Actions
Like ENABLED	Edit Delete
Dislike ENABLED	Edit Delete

Edit

Here you can edit every aspect of the rating criterion. Press "Edit" from the list view and fill in the fields:

Name Actions

Like **ENABLED** [Edit](#) [Delete](#)

Name:

Description:

Order:

Sorting of criteria order numbers is ascending.

Enable this criterion

Icon: thumbs-up

Filter icons

Use the full identifier of the icon, for instance "far fa-user" for . You can use any icon from Font Awesome Free 5.0.

[Update Criterion](#)

Option	Description
Name	Recommended is a noun. This is the only mandatory field.
Description	Tell users something about the meaning of this criterion.
Order	Sorting of criteria order numbers is ascending.
Status	You can disable and enable criteria.
Icon	You can define an optional Font Awesome icon for your criterion.

Be careful renaming a criterion, as this may alter the original intention of existing user ratings.

Delete

Press "Delete" from the list view and confirm the deletion.

Deleting a criterion also deletes all ratings and feedbacks (when feedback management is configured) for this criterion. Consider disabling it.

Add Criterion

For adding a criterion just switch to the "Add Criterion" tab and fill in the fields:

Name*

Description

Order

Sorting of criteria order numbers is ascending.
 Enable this criterion

Icon none

Use the full identifier of the icon, for instance "far fa-user" for 👤. You can use any icon from Font Awesome Free 5.0.
